

# LISTEN UP.

WHEN YOU TAKE A PUFF FROM A VAPE PEN, YOU ARE INHALING TRULY VILE CHEMICALS. YOU'D BE SURPRISED WHERE ELSE YOU CAN FIND THESE TOXIC INGREDIENTS.

Do not use

(GROSS.)

with a vape pen  
**VAPING SUCKS.**  
LAY OFF YOUR LUNGS.

**FORMALDEHYDE**

You know that sickly smelly stuff that preserves the frogs you dissect in anatomy class? It's toxic. It's pungent. It's in vape pens.

**ACETONE**

That varnish stuff you shellack to wood to make it look shinier? It contains a compound that's found in nail polish, paint thinner and – you guessed it – vape pens.

**DIETHYLENE GLYCOL**

That fluorescent green antifreeze stuff you pour into a car engine? It contains diethylene glycol. It's literal poison to humans. And it's found in vape pens.

**PASS ON THE PUFF. LET THE VAPE PEN DIE – FOR GOOD.**
